

Choose these for your project

- Markers
- Tempera or Acrylic Paints
- Crayons (press hard)
- Paper Collages
- Photos
- Bold Intense Watercolors
- Black Marker for outlining

These create the best results

Do NOT use these

These will NOT be processed:

- Glitter of any kind
- Abrasives (sand, salt, etc.)
- 3D materials
- Scratch art/Scratch board
- Copyright/trademark items

We highly recommend not using these:

- Chalk* (must be sprayed)
- Oil Pastels/Cray Pas* (must be sprayed)
- Colored or lead pencil (too light)
- Fluorescent, Neon & metallics (do not reproduce true to color)

Paper:

 **All paper should be 8 ½" x 11"**. We recommend a paper weight of 60-70#

 Construction paper often does not reproduce true to color. Blues can look purple, blacks can be green, etc.

Copyright:

We cannot accept copyright images, due to copyright laws

This includes: images, logos, brand names, emojis, video, cartoon & anime characters, stickers, magazine and newspaper prints. If you are unsure we recommend you do another project.

Please Note!

 We capture the entire 8.5" x 11" artwork and reproduce it. Slight cropping occurs during manufacturing.

 All artwork submitted is captured "as is." We cannot be held responsible for remaking custom products if art instructions are not followed.

Art Tips!

Rub your hand across the artwork. We will not process them if:

 Color comes off or it feels sticky or scratchy

 There is glitter or chalk

Hold the artwork across the room. Can it be seen clearly?

 Yes - Great! Your art will reproduce well.

 No - Darken areas that are too light to be seen. Outline details with marker.

Fill the entire art paper. Don't create unfinished drawings.

Keep names, dates and important details 1" from edge. **Cropping can occur during reproduction**

Secure all pieces of collages to ensure they don't fall off.

Add a 1" border to keep details from edges. Erase pencil guides.

Do not create thin or uneven borders.

Use bright, vibrant colors. Pencil and lightly colored art will appear washed out on products.

*Chalk & Oil Pastels

If you do choose to use them, please do so with caution and they **MUST be sprayed with a fixative such as Krylon #1311 Matte Fixative**. *If they are sticky, or color comes off on your hands, they will be returned unprocessed.*

Create art that sells!

- ▲ Skin tones must be heavily covered and opaque as possible
- ▶ Recolor & repaint any lightly colored areas
- ▼ Erase unwanted marks, pencil lines and smudges
- ▼ Trim excess paper that hangs over the edge of the paper
- ▲ Consider using a black marker to outline details
- ▼ Have artists sign and date their masterpiece (use our Signature Template to avoid the edge)

Completing the project

✔ Identify the artwork

- ✓ **Using pencil** - write the artist's first and last name, teacher and grade on the **BACK** of the artwork
- ✓ Applying labels? Apply the label to the **BACK - TOP** of the artwork **after** the artwork has been completed

✔ Artwork orientation

- ✓ **Using pencil** - place a "T" on the **BACK - TOP** of the artwork to ensure proper orientation
