

Tile Installation

Before You Begin- **INTERIOR USE ONLY**

- ✓ Use sand-less grout to avoid scratching artwork
- ✓ Use tile spacers for even alignment
- ✓ Layout your entire mural first
- ✓ Work with a qualified tile installer if possible

Step-by-Step Installation

1. Prep the Wall

- Use a notched spreader to apply tile adhesive (one yard at a time)
- The ridged surface helps tiles grip

2. Start Bottom-Left

- Begin in the bottom-left corner and work right across the row
- Continue row-by-row moving upward

3. Wipe as You Go

- Use a damp sponge to gently remove any excess adhesive

Grouting (24 hours after tiling)

1. Apply Grout (sand-less, non abrasive)

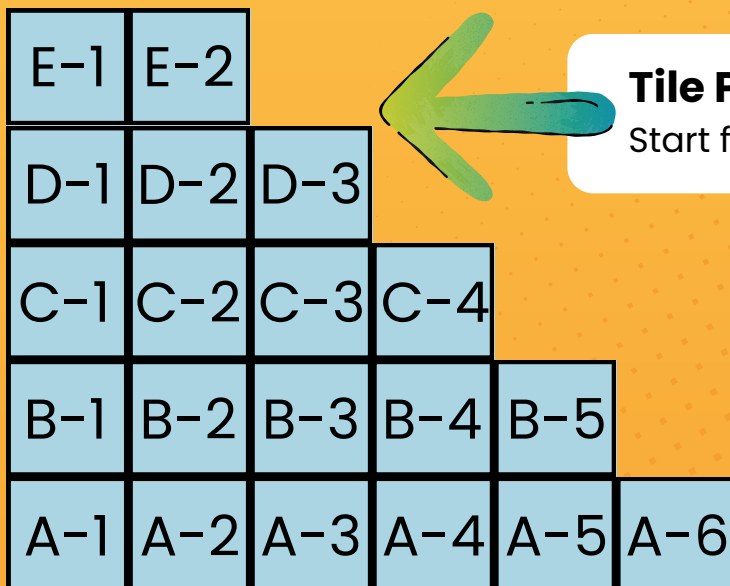

- Use a rubber spreader, sponge, or squeegee
- Work grout into all gaps between tiles

2. Clean the Surface

- Wipe off excess grout with a clean, damp sponge
- Rinse sponge often

3. Final Touches

- Run a dowel along grout lines for smooth finish
- Once dry, polish tiles with a soft cloth

Tile Placement Guide

Start from the bottom-left corner of your wall.

Important Notes

- For indoor installation only
- Original Works is not responsible for damage during installation or issues from outdoor placement
